Dear Harold,

Thanks for your 8/10/84 and for your enlightening insights about Summers, Mexico, etc. I had responded previously to your query for Mexico City documents with a few footnotes from Summers. I have no original documents. In my Mexico City memo, p.2 I refer to tapes but I have no documentation about their number, except the possibility that multiple visits might mean multiple tapes (although it could be a single tape).

I too always thought Gallow was a nut. I see what you mean about Oswald's relationship with Ferrie, DeM, Bringuier (of the superficiality of any data) I want to think on this a bit more and get back to you. The DeM/LHO relationship seems to me a complex one.

The letter from Huff (thanks for the JD/FOIA letters) is outrageous! Please do keep me informed.

Best Regards,

Phil
